SVI – PROJECTORS AND SCREENS

As brand partners and official distributors, Meridian Audio is able to provide dealers with top-of-the-range projectors from Barco Residential and DT Screens solutions, creating premium quality home cinema and media room experiences for its customers.

Barco Residential Projectors

Together, Meridian and Barco Residential can provide the key ingredients for a successful home cinema or media room installation. Featured in Meridian's new dedicated media room in Huntingdon, Cambridgeshire, dealers are encouraged to experience the Medea projector, the brightest UHD laser projector at its price point. It features 5500 lumen for true HDR playback and gives integrators flexibility with five lens options, whilst ensuring a truly impressive image and dynamic contrast to create an engaging and immersive experience, even in spaces where light control is limited. Starting at just £21,500 RRP excluding VAT, the Barco Medea projector is specifically designed to excel in media room applications for the ultimate movie-watching experience, available to purchase through Meridian.

Display Technologies Screens

Display Technologies Screens' wide range of models offer complete flexibility in size and aspect ratio, which makes it easy to deliver the perfect viewing experience. With a knitted, white, wide viewing angle, highly acoustically transparent image surface, the Reference Display Technologies range of screens are the ideal solution, which can be installed with ease thanks to their easy build technique. They can be installed straight onto the wall thanks to their front-loaded image surface, reducing the risk of dirt and damage as the screen frame is already mounted before the screen surface is fitted. This allows integrators to save time and money, whilst Transparent Reference

image surfaces deliver stunning, vibrant images without any moiré effect. Distributed by Meridian, the micro bezel (2mm) Contempo screens start from just £1700 RRP excluding VAT, whilst the Frontier screens (69mm bezel) from just £1900 RRP excluding VAT.

Meridian's Design and Specification Service

Featuring solutions from Barco Residential and Display Technologies, Meridian's complimentary Design and Specification Service can help dealers to provide a complete audio-visual scheme when paired with Meridian audio systems. It saves them both time and money whilst ensuring the correct placement for the best possible audio experience in home cinemas and media rooms alike.

Together, Meridian, Barco Residential and Display Technologies can provide the key ingredients for a successful home cinema or media room installation. To learn more about Meridian's range of audio solutions and partnerships, visit www.meridian-audio.com.
