

# MERIDIAN CEDIA EXPO AWARDS SUCCESS

PRESS RELEASE

## MERIDIAN AT THE DOUBLE WITH CEDIA EXPO AWARDS SUCCESS

Meridian Audio proved why they are the outstanding brand in high-resolution audio at this year's CEDIA Expo in Denver, taking home the CEDIA Award for Best New Hardware in the Americas region, and also winning a CE Pro BEST Award for the new Meridian DSP640.2 In-Wall Loudspeaker.

The DSP640.2 In-Wall Loudspeaker saw off tough competition, rising above renowned industry brands Lutron, Samsung, and Sony, to win the Best New Hardware category in the Americas CEDIA Awards 2019. The CEDIA Awards recognise the very best in technical excellence and product innovation and the judges were especially impressed by the dynamic audio and unmatched levels of performance delivered by Meridian's DSP640.2 speakers.

Powered by Meridian's exclusive 'CLASS-M' DSP engine and integrated with 'DYNAMIC' Hi-Res amplifiers, the DSP640.2 is perfect for delivering Meridian's renowned audio quality discreetly in any media room or home cinema.

"Winning the CEDIA Best New Hardware category is a fantastic achievement for Meridian and all the team behind the DSP640.2," says John Buchanan, Chief Executive Officer at Meridian Audio. "The DSP640.2 is a game-changer for the architectural loudspeaker category. It raises the bar for powerful, dynamic and immersive audio experiences in cinemas and media rooms, capable of a very high SPL with ultra-low distortion for an emotional experience. We'd like to thank CEDIA for their recognition. Watch this space for even more Meridian innovations coming soon."

Meridian's success at CEDIA continued in the CE Pro BEST Awards as they secured top prize in the Best Product in the Architectural Range category, again for the Meridian DSP640.2 In-Wall Loudspeaker. The CE Pro BEST Awards celebrate the most noteworthy products and technologies of 2019, judged on innovation, functionality, and installation by a dozen industry leaders.
